Set Up Procedure

DJ-4122

4 X 4 MATRIX MIXER

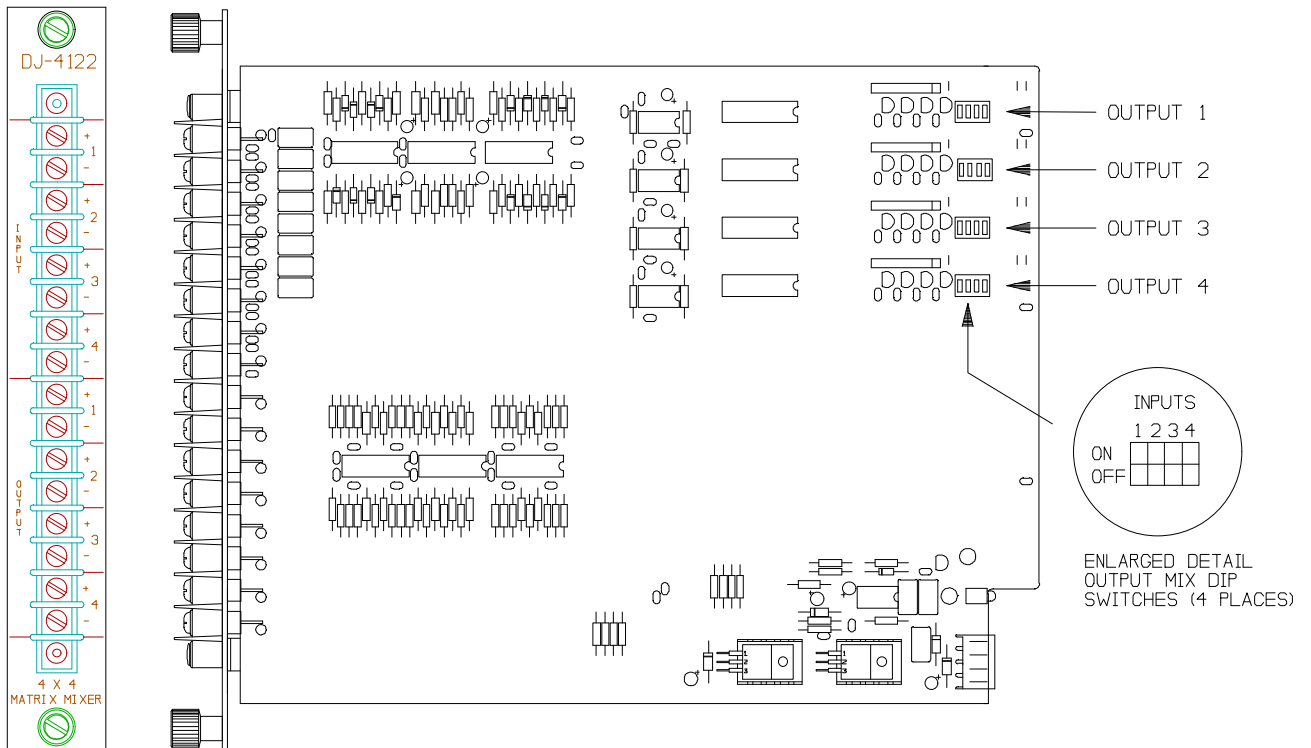

Refer to back page for Control Record.

Refer to **System 41 Installation Manual** for general instructions on module installation and wiring.

Refer to **DJ-4122 Data Sheet** for product specifications and functional diagram.

MIX SETUP

- Each of the outputs has an associated eight position DIP switch used to select which inputs contribute to that output mix. Example: To program Output 2 to contain Inputs 3 and 4, locate Output 2 DIP switch and set positions 3 and 4 to the ON position.
- Record mix setups on reverse side of this page.
